                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     Pred. No. 1s the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         Score

S57596

ribosomal RNA processing protein RRP5 - yeast (Saccharomyces cerevisiae)

ribosomal RNA processing protein YM9529c

R;Alternate names: protein YM9529c

C;Species: Saccharomyces cerevisiae

C;Species: Saccharomyces cerevisiae

C;Accession: S57596; S72446

R;Skelton, J; Churcher, C.M.

submitted to the EMBL Data Library, June 1995

A;Reference number: S57597

A;Accession: S57597

A;Accession: S17596

A;Polecule type: DNA

A;Residues: 1-1729 < SKRE>

$46034

Nypothetical protein YBR163w - yeast (Saccharomyces cerevisiae)
hypothetical protein YBR163w - yeast (Saccharomyces cerevisiae)
hypothetical protein YBR1262

C; Species; Saccharomyces cerevisiae
C; Species; Saccharomyces cerevisiae
C; Accession: $46034

C; Accession: $46034
